ONE NATION UNDER GOD

## RAMAZAN MOBORAK 2010 *Purpose of Religion*

Please visit our website

1. ICBH was formed in 1990. ICBH goal is to promote religious friendship, understanding, mutual love and respect in our community.
2. There is only one religion in the sight of God and that is obeying God according to your own holy book.  
Example: Different religion in the sight of God is like different faculties in a University. In the sight of Dean of a University, Medical school, Law school and Business school may teach different things but the purpose is educating the students and students may compete with each others in different sports but they are all educated friends.
3. Dearest person to God is the person who obeys God (a pious person) not the richest or the prettiest or the most educated.
4. There is no compulsion in religion.
5. The purpose of religion is to make you a perfect person so you can obey God and establish justice and fairness on earth.  
Example: The purpose of higher education is to make you more knowledgable so you can build a better family and better community.
6. For you to become a better person you must obey God's command. Therefore you need to pray, fast, pay zakat and help the needy. If you do not obey God you will suffer. God does not need your prayer, you do  
Example: For you to become educated you need to do your homework, study hard and pass all your tests. If you do not do your homework you fail and suffer not your school principal.
7. If a person does a criminal act under the name of God or under the banner of religion (suicide bomber, religious dictators and tyrants) He misunderstood God's command and he will end up in hell fire forever.

GOD BLESS AMERICA

ONE NATION UNDER GOD

Example: If an educated person becomes a criminal and kills or destroys people's property like *Kevorkian* or *Madoff* they miss understood the purpose of their education that is not their medical school or business school's fault or the fault of their teachers.

8. Has religion made you a better person? Ask yourself; ask your friends and family. If you have improved God bless you and keep going toward perfection. If you have not improved maybe you did not understand the purpose of the religion please try harder.

Example: If you went to school or university and did not get a good education, maybe it is your fault maybe you did not study hard enough and miss understood the purpose of education. That is not university's fault or the fault of your teachers.

9. If you need free Quran, Islamic books and C.D. all in English please send us an email or fax.

*God Bless you and your honorable family.*
